- WHO WE ARE

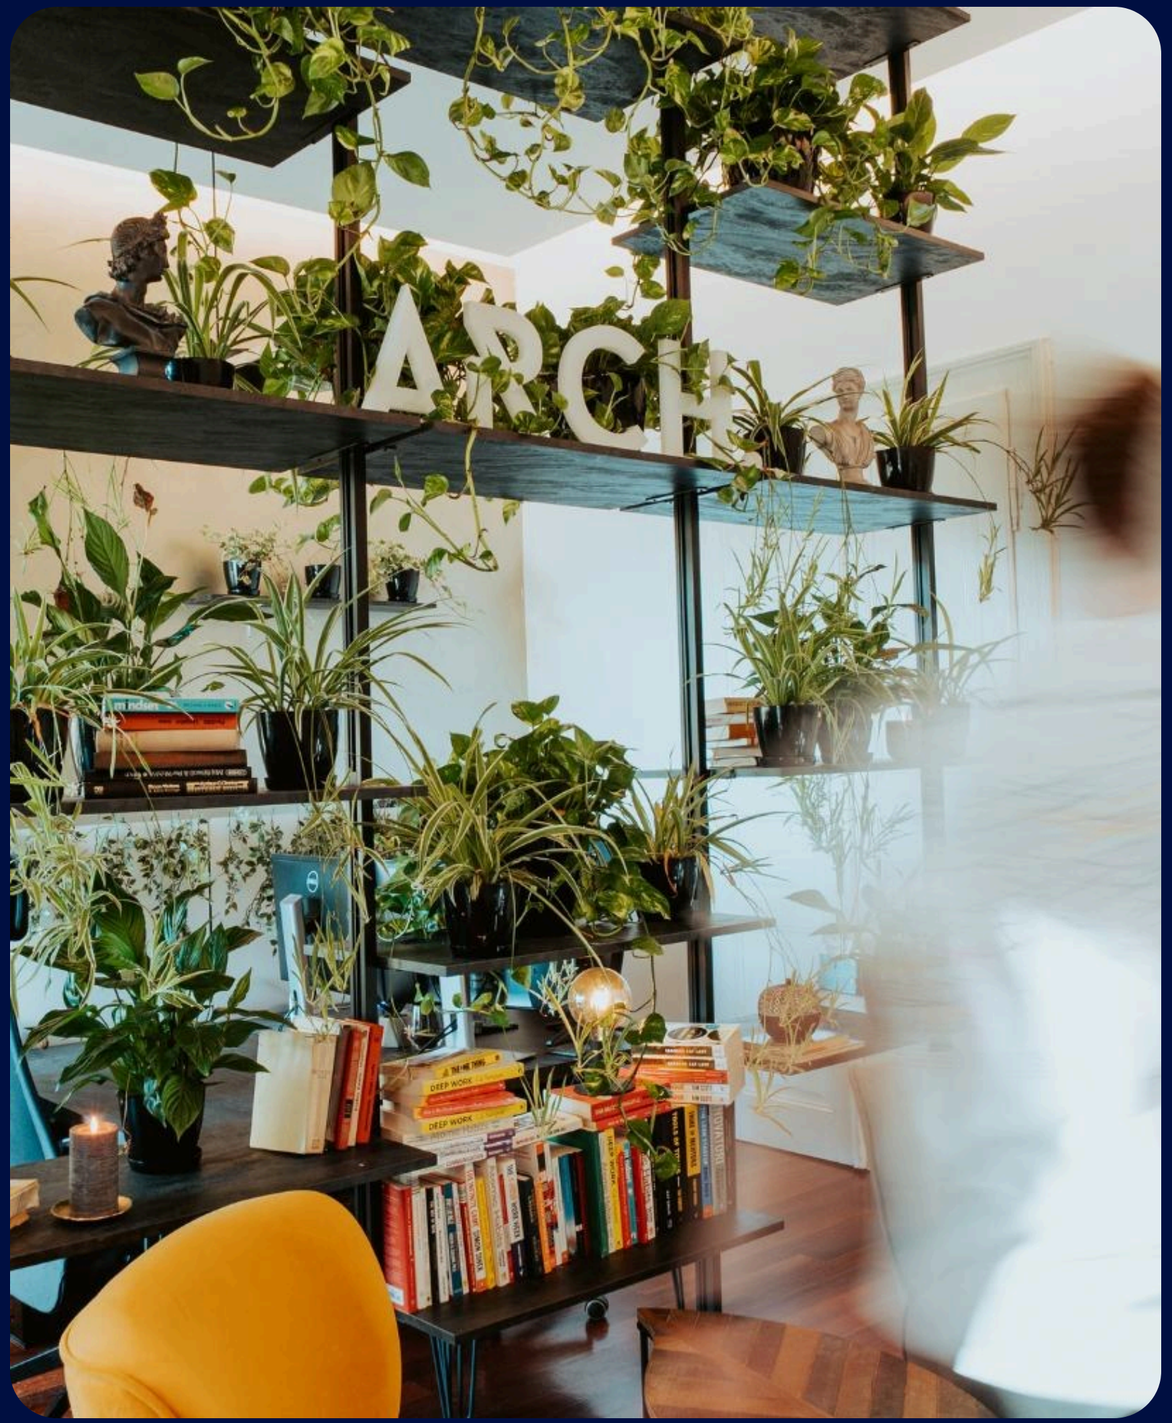

AN INFLUENCER AGENCY BUILT FOR GAMES & APPS.

We find the creators whose audience fits your product, negotiate the rates, run the campaign and measure what it brings in. Mobile games, PC games and consumer apps, for five years.

WHAT WE MEASURE

CREATORS AS AN ACQUISITION CHANNEL

Views are nice. We judge a campaign by the users it brings in and what they cost, the same way you'd judge any paid channel.

INSTALLS

Every creator gets their own link or code, so each install traces back to the video that drove it.

CPI

What each install costs. It decides which creators we book again and which we drop.

ROAS

Revenue against spend. For games we track it with deep links and in-game offers.

RETENTION

Whether the new users stay. You set the D1 and D7 targets, we plan the campaign around them.

WHAT YOU GET WITH US

PROVEN CREATORS

We pick from 5,000+ creators we've already worked with across entertainment, lifestyle, tech and finance, and we know which ones convert.

BUILT AROUND YOUR PRODUCT

Each campaign is planned for your product, audience and goals. No template packages repeated for every client.

ON YOUR SIDE OF THE TABLE

We're not tied to exclusive talent. We pick creators per campaign and negotiate the rates for you.

WE OWN THE MISSES

If a creator flakes, we arrange an extra activation free of charge or at our own cost. You don't pay for it.

• HOW WE WORK

HOW A CAMPAIGN RUNS

STEP 01

BRIEFING

We get to know your product, your goals and your KPIs. This is also where we agree on markets and budget.

STEP 02

SCOUTING & NEGOTIATION

We shortlist creators whose audience fits your product and who share its vibe, then negotiate rates and terms.

STEP 03

CONTENT & GOING LIVE

Your brief plus the creator's own style. We handle contracts and the legal side and keep everything on brand.

STEP 04

DEBRIEFING

When it wraps, we go through the data: what worked, which creators to keep, and what changes next round.

WHAT WE RUN

FORMATS & TRACKING

FORMATS

→ YouTube integrations, 60 to 90 seconds

→ Dedicated YouTube videos

→ YouTube pre-rolls

→ Twitch and YouTube streams

→ TikTok and Instagram reels

TRACKING

→ A personal link per creator

→ Promo codes in the description

→ Deep links to in-game offers

→ Installs and cost per install, per creator

SPECIAL CAMPAIGNS

→ Registration battles

→ Discord roles campaigns

→ Multi-segment YouTube series

Run for Wargaming and Match Masters. See their case studies.

HOW WE CHARGE

THREE WAYS TO PAY

We pick the model with you at the briefing, based on your product and how you measure success.

MOST CAMPAIGNS

FIXED FEE

A set fee per creator activation, agreed before anything goes live. Easy to plan and easy to compare.

WHERE IT FITS

CPI

You pay per install. We offer it when the product and the creators make it a fit.

TESTED BY US

HYBRID

A flat fee up front, then the creator earns per install above an agreed number. It keeps creators pushing for installs.

CASE STUDY · APPS

SURFSHARK

DRIVING SALES ACROSS EUROPE

THE AUDIENCE

Creators who could speak to Surfshark's strengths: data safety on the go, getting past geo-blocks, online privacy.

WIDER REACH

We went into unexpected categories too: pop culture reviews, movies, investigative journalism.

PART OF THE STORY

Surfshark was built into the narrative, with a subscribe link right there for the viewer.

#1

MATCH MASTERS, #1 GAME IN 15 COUNTRIES

THE FIRST MOVE

A wave of new players from a wide range of creators and standout creatives. Match Masters took the top spot on the App Store and Google Play in the EU during our campaigns.

KEEPING THE MOMENTUM

We dug into the data and kept the creators who performed best for the long haul. Then we moved to YouTube with multi-segment videos and changed the creative to keep players engaged.
